AN AUTOMATED SERVICE, FAST AND RELIABLE

1 You send in your file: 3 options

Batch: you send in your file by e-mail or in CD/DVD format (for intermittent updates)

Automated batch: the file is posted on an FTP server (for regular updates) **Transactional service** (for real-time updates)

Transactional service (used for real time enhancement)

2 Automatic file standardisation before updating

Addresses are standardised based on the following information:

Full address (road and number) - town - postcode

3 Updating and/or validation

A telephone number is added or validated based on specific markers

Markers :

- Description(s), company/trading name, family name, etc.
- Address(es) invoice/delivery address, etc.
- VAT number, source telephone, date of birth

4 Delivery of file: 3 options

Delivery in 3 working days > Batch: the file is sent by e-mail or in CD/DVD format

Real time delivery > Automated batch: the file is posted on an FTP server

Transactional service (transaction returned in HTML format)

.....
